

ONE PAGE, THE WHOLE MONTH

Your monthly rhythm

Every month follows the same path. We work in business days (BD). BD1 is the first business day after your prior month ends. Here is exactly what happens, and what you receive, at each step.

BD1
OPEN**We open the month**

Bank and card activity flows in and the prior month is queued to close. Nothing needed from you.

BD3
YOU**Open items list to you**

One short list of anything we need: a statement, a receipt or memo for a few transactions, an approval. Quick replies keep your close on time.

BD6
REVIEW**Full quality review**

Your books get a complete review for accuracy before anything goes out.

BD10
DELIVERED**Financials in your hands**

Your closed month is delivered with a short plain language summary of what changed and what to look at.

What you receive, and when

When	What lands in your inbox
Around BD3	Your open items list, the few things we need from you this month
By BD10	Profit and loss, balance sheet, and a short summary note
On your schedule	Your monthly review conversation, if your plan includes one

The short version: reply to the open items list by BD3, and your financials are in your hands by BD10. Same rhythm, every month.
