

INTERNAL PLAYBOOK · NOT CLIENT FACING

Client Meeting Kit

Standard agendas, a standard report pack, and a prep checklist so any client meeting can be assembled and run without Ricky. Use the agenda that matches the meeting type. The report pack and prep steps are the same across all of them.

This is an internal document. Do not send it to clients. It standardizes how Hardik and Vanessa prepare and run meetings so the founder is not the bottleneck.

Agenda A · Monthly review (SMB)

Owner: Client Lead. Length: 30 minutes. Cadence: monthly or as the plan defines.

1. **Open (2 min)**. Confirm the period being reviewed and ask what is top of mind for the owner.
2. **The month in one line (3 min)**. Lead with the plain language summary before any report is opened.
3. **Profit and loss walk (8 min)**. Bottom line vs last month, then anything unusually high or low, with the reason.
4. **Cash and balance sheet (5 min)**. Cash position and any large movements in what they owe or are owed.
5. **Open items and follow ups (5 min)**. Anything still outstanding from the client, and anything we owe them.
6. **Looking ahead (5 min)**. Known changes next month, decisions on the horizon, any add on that would help.
7. **Close (2 min)**. Restate every action item with a named owner and a date. Never end with an item owned by "the client" and no date.

Agenda B · Board or elder presentation

Owner: Client Lead (Ricky for tier 1 relationships). Length: 20 to 30 minutes, often part of a larger meeting.

1. **Headline health (3 min)**. One plain language read on where things stand. No jargon.
2. **Budget vs actual (7 min)**. Where the period landed against plan, with the two or three variances that matter and why.
3. **Giving or revenue trend (5 min)**. The multi period arc, not just this month, so the board sees direction.
4. **Cash and reserves (4 min)**. Position, runway, and anything the board should weigh.
5. **Questions (5 min)**. Invite the room. Answer plainly, and take anything unknown as a follow up with a date.
6. **Close**. Confirm what the board asked for and who owns it.

Agenda C · Pastor or executive director check in

Owner: Client Lead. Length: 15 to 20 minutes. Cadence: monthly or as agreed. Relationship first, numbers second.

1. **Relationship open (3 min)**. Genuine check in. How is the season going for them and the organization.

2. **What changed (5 min).** The one or two things worth their attention this month, in plain language.
3. **Anything they are worried about (5 min).** Give space for the real question, often giving, payroll, or a specific fund.
4. **Stewardship note (3 min).** One useful observation on giving or spending they can act on or share.
5. **Close (2 min).** Confirm follow ups with owners and dates. Offer the reference of a live dashboard if they have one.

The standard report pack

Every client meeting is assembled from the same pack. Pull these, in this order, and the meeting builds itself.

Item	Source	Notes for the preparer
Plain language summary	The month's delivery note	This leads the meeting. If it is not written, write it before the meeting.
Profit and loss	QuickBooks Online	Current month plus a comparison to prior month.
Balance sheet	QuickBooks Online	As of the close date.
Budget vs actual	QuickBooks Online / plan	For board and reporting clients. Flag the top two or three variances.
Giving or revenue trend	Client dashboard, where one exists	Multi period view. Churches: include the giving read.
Open items status	The BD3 open items list	What is still outstanding and what it is holding up.
Prior action items	Last meeting's notes	Show what was closed since last time. Builds trust.

Pre meeting prep checklist

Hardik or Vanessa can complete this without Ricky. Start two business days before the meeting.

- ☐ Confirm the meeting type and pull the matching agenda (A, B, or C).
- ☐ Assemble the report pack above for the correct period.
- ☐ Confirm the books for the period are closed and reviewed. If not, escalate before the meeting, do not present unreviewed numbers.
- ☐ Write or refresh the plain language summary: what changed, what to look at, what is still open.
- ☐ Pull last meeting's action items and mark what was completed.
- ☐ Identify the top two or three things the client should notice, and the reason for each.
- ☐ List any open questions we owe the client an answer on, with a date.
- ☐ For dashboard clients, confirm the live dashboard is current and the link works.
- ☐ Send a short agenda or heads up to the client the day before, if that is the norm for the relationship.
- ☐ Have a place to capture action items live, so every one leaves with an owner and a date.

The one rule for every meeting

No action item leaves the room owned by "the client" with no date, and no action item defaults to Ricky.
Assign a named Turnkey owner and a date to everything before you close.

Turnkey CFO · Bookkeeping, payroll, AP/AR, monthly close & reporting

Financial clarity. Confident growth.
